

**Cover more ground,  
find more sheds!**

## **Teach your dog to retrieve shed antlers with Dog Bone!**

**Proven Dog Bone System will have your dog finding shed antlers in no time!**

### **Soft Retrieving Antler**

- Introduces and conditions antler shape
- Eliminates negative experience of hard, heavy, pointy shed antlers!
- Made from the same soft, familiar material as other retrieving dummies

### **Antler Scent (2 oz)**

- Add to Dog Bone Retrieving Antler to introduce antler scent
- Add to real shed antlers to enhance shed-scent during training

### **Instruction Manual**

- Everything you need to know to train your dog to hunt for and retrieve shed antlers

**It's  
Soft!**

**Works with virtually  
ANY breed of dog!**

**Dog  
Bone™**

**Shed Antler Retrieving System**

Patent Pending

# Developed by a dog trainer/shed hunter, the Dog Bone™ 3-Step Shed Antler Training System will help you train your dog right!

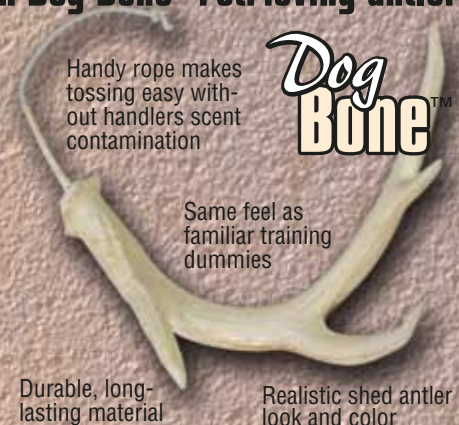

Puppies struggle to retrieve hard, heavy, pointy shed antlers and, if they have a bad experience, might become “shed shy”. Dog trainer/shed hunter, Jeremy Moore, developed the Dog Bone System to help assure your dog will love to find shed antlers!

## STEP 1. Condition antler shape with Dog Bone™ retrieving antler!

You get only one chance to make a first impression. Make sure your dog's first impression of an antler is positive, not pointy. Use the soft Dog Bone™ retrieving antler to familiarize your dog with the shape of an antler. Make retrieving the antler fun and build your dog's confidence. We've made the Dog Bone™ retrieving antler out of the same material that other retrieving dummies are made! This adds an element of familiarity for older, previously trained dogs.

Handy rope makes tossing easy without handlers scent contamination

**Dog Bone™**

Same feel as familiar training dummies

Durable, long-lasting material

Realistic shed antler look and color

## STEP 2. Teach antler scent by adding Dog Bone™ Antler Scent!

The idea is introduce one element at a time. To go from A to B to C and not from A to Z. The next step, once your dog has learned to retrieve the Dog Bone™ retrieving antler, is to introduce scent by adding Dog Bone™ Antler Scent to the soft retrieving antler. This scent, made from actual pulverized antler, is a critical component to the system!

## STEP 3. Replace Dog Bone™ with real shed antler (add scent)!

The final step in the Dog Bone™ 3-Step System is to replace the Dog Bone™ retrieving antler with a real shed antler. Add some Dog Bone™ Antler Scent to the real antler. This enhances the smell and is consistent with the philosophy of changing just one element at a time.

Real shed antler

Made In The USA
